

**PolicyMedical's Flagship Hospital Management Application
Now Embeds the dtSearch® Engine**
*PolicyMedical chooses dtSearch for the company's
"commitment to excellence and innovation"*

RICHMOND HILL, ONTARIO and BETHESDA, MD (November 12, 2009).

PolicyMedical is a leader in the field of hospital policy management. The Smart Choice for Text Retrieval® since 1991, dtSearch specializes in enterprise and developer text retrieval software. Together, the two companies announce that PolicyMedical has upgraded its flagship PolicyManager application to embed dtSearch Engine search functionality, providing instant full-text and fielded data searching covering terabytes of text.

PolicyMedical. PolicyMedical is the "go-to" expert in the field of hospital policy management, a particularly valuable resource in the highly stringent regulatory and quality driven healthcare culture. Hundreds of hospitals around the world use the company's PolicyManager to optimize patient care, improve operational efficiency, and reduce risk and liability.

dtSearch Engine now embedded in PolicyManager. For searching within PolicyManager, the company chose to embed the dtSearch Engine. "We selected the dtSearch Engine because of the ease of integration at our end, and the resulting client ease of use," said Saud Juman, CEO, PolicyMedical. "We particularly valued dtSearch Corp.'s commitment to excellence and innovation."

The dtSearch Engine can index over a terabyte of data in a single index – as well as create and instantly search an unlimited number of indexes. The software offers more than 25 search options, including Unicode support covering hundreds of international languages. Proprietary file format support highlights hits in popular file types. A built-in Spider supports searching of local and remote, public and secure, dynamic and static web data, with WYSIWYG hit-highlighted displays. The dtSearch Engine API supports .NET, Java, C++, SQL, etc., including native 64-bit Windows/Linux support.

"PolicyMedical is using its expertise in healthcare to achieve innovation in the field of hospital policy management," said David Thede, president, dtSearch Corp. "We welcome the opportunity to work with them in the medical field."

About PolicyMedical, www.policymedical.com

Along with its software, PolicyMedical counsils its clients on best practices, allowing them to leverage PolicyMedical's nine years of experience in healthcare policy management.
