Hi Ron,

I wanted to drop you a line to let you know how pleased we are with DtSearch.

As you know, we are an IT staffing firm operating in Montreal Quebec. Finding the right Candidate for our clients is always a challenge. Extracting the right information from the tens of thousands of resumes is critical. DtSearch does it beautifully.

I looked at other products but they didn't seem to have all of the functionality of dtSearch. Working in a multilingual environment, we really appreciate dtSearch's ability to index and search in any language. With the volume of resumes that we receive, dtSearch has made our life alot easier. We also like it's flexibility and myriad of search options and reporting.

Honestly, I can't see how any firm needing to do search/text retrieval can do without this product. It has certainly increased our efficiency and response time to our clients.

Ron, in closing I also wanted to thank you for your "being there" to answer questions. Feel free to invite potential customers to communicate with me at stevenc@chacra.com.

Best Regards,
